EXECUTIVE SUMMARY

Building on 60 years' experience in teaching Russian to international students and being the most international university in Russia, we are introducing the Digital Pre-University Faculty.

In close collaboration with real-life professionals from medicine, engineering, economics and other fields, RUDN professors have designed a unique methodology of teaching Russian through an interactive training platform and face-to-face classes.

The distance education system is offered to people who are interested in learning Russian for all purposes: education, career, travel, general and specific fields.

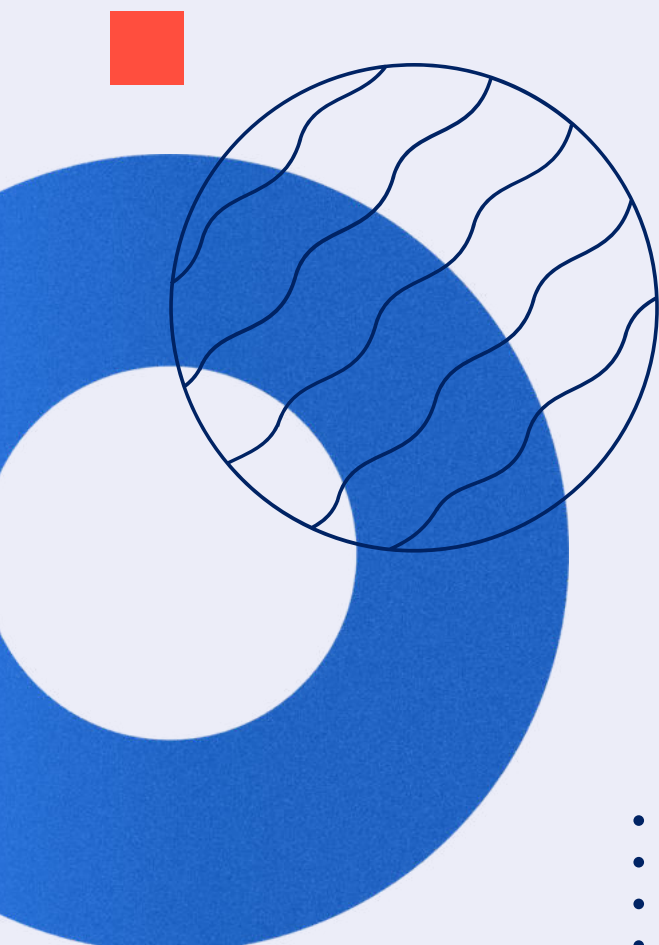

ABOUT RUDN

RUDN University is home for education, research, creative self-realization, career opportunities for 30,000 students from 160 countries.

According to QS World Universities Ranking 2023 RUDN is on 295th place globally. Also, the University has reached top positions in 7 subject areas from Linguistics and Modern Languages to Mathematics and Chemistry.

Reflecting the 2017 Sustainable Development Goals, the mission of the University is to unite people of different cultures by knowledge to create leaders to make the world better.

THE LEADING RUSSIAN UNIVERSITY

RUDN University is one of the best world class universities in Russia ranked by QS World University Rankings, Times Higher Education World University Rankings and UI GreenMetric World University Rankings. RUDN is the first university in Russia to get 5 QS Stars in 5 categories.

VISION

RUDN Digital Pre-University Faculty provides international students with an opportunity to learn Russian and get ready for studying at Russian universities. Teaching methods are developed according to national and regional features, as well as to the ICT index of students' residence countries.

Our students have many options to integrate into Russian culture and language, particularly through lectures with teachers, chats with tutors and Russian students, open online parties, games and competitions.

All lessons come with lots of interactive materials, gamified exercises and communication with natives. This formula makes online teaching more effective and learning - more enjoyable.
